Position and context In the historical center of Moniga, not far from the medioeval castle, rises a new residence worth to be seen. The building is in proximity of the garden of the church (XVII century) which will be soon transformed in a public park. The main way between the castle and the church offers an impressive view to the nearby lake. The residence is made up of 3 main blocks named MURA, BASTIONE and TORRE. The main entrance allows a charming view of the inside: the garden and its characteristic moat. All rooms are connected by a wooden bridge. Two basement floors with garages are available, from which you can reach every complex of the building. In the ground floor, shops are facing the front street. The unit T14B is located in the part of the building called "Torre".
